

## Keep Your Doctor When You Turn 65

People approaching their 65th birthday often have questions concerning continued health care coverage such as "Can I keep my doctor?" or "What kind of coverage is available beyond traditional Medicare?"

If your doctor is part of Physicians Medical Group of Santa Cruz County (PMG) or Dominican Medical Foundation, you can continue to receive the quality health care you have grown accustomed to after you become eligible for Medicare when you choose one of our contracted Medicare Advantage Plans. PMG and Dominican Medical Foundation doctors also work closely with Dominican Hospital to offer a comprehensive range of services...so it's a great way to receive the quality health care close to home.

To find out if your doctor is part of PMG and Dominican Medical Foundation, and to learn more about our contracted Medicare Advantage Plans, please call us at **831-465-7818**.
